RN = 18,596 (RN permits = 10) (GN permits = 1)

LPN = 2,832 (LPN permits = 2) (GPN permits = 0)

APRN = 1,643 (APRN permits = 3)

Advanced Practice Registered Nurses: NP = 1058; CRNA = 356; CNS = 184; CNM = 45

Total permits = 16

Total Active Licenses = 24,714

UNFINISHED BUSINESS

There was no unfinished business before the Board.

COMMITTEE REPORTS

APRN Committee

Dr. Mack informed the Board that the Committee met on March 20, 2017, and discussed potential changes to the rules and regulations. The Committee reviewed and approved twelve applications for APRN independent practice.

The Committee is scheduled to meet on April 17, 2017.

Practice and Education Committee

Ms. Bastholm reported that the Practice and Education Subcommittee met on March 27, 2017 and completed the revisions to the applications for Phase I and Phase II for new nursing education programs. The Subcommittee discussed the allotted amount of time for nursing programs to obtain national accreditation. Currently, new programs are given five years from the first graduating class to obtain national accreditation. It was discussed whether it is beneficial to the graduating students, graduating from a non-accredited program, to shorten the allotted amount of time for programs to obtain national accreditation. The Committee is scheduled to meet in June and will have further discussions regarding the allotted amount of time for programs to obtain accreditation.

PRESIDENT'S REPORT

Ms. Tyranski advised the Board that she attended NCSBN midyear meeting in Salt Lake City, Utah. In addition to general meeting, she joined Dr. Mack at the enhanced Nurse Licensure Compact administrators meeting. She also participated in president's round table discussion and Area 4 meeting. Highlights of the NCSCBN Midyear meeting included a discussion with the NCSBN IT lead, who assured Dr. Mack and Ms. Tyranski that NCSBN will fund the necessary data extraction programming to meet the reporting requirements required for the enhanced Nurse Licensure Compact. DPR is in the process of procuring an updated licensing management system and NCSBN committed to funding any data extraction programming should the incumbent vendor not be the ultimate awardee. There was a frank lecture about substance abuse presented by Dr. David M. Martin, PhD and the science team director for the DEA's education foundation. During his talk he presented video that was taken in Brazil's "crack square", where every evening thousands of people gather in a public area to use illicit drugs, about a mile square designated for that specific purpose. The police cannot and do not control the area. Each morning undertakers and rescue workers arrive to the area to take away the people who did not make it through the night or need immediate intervention are provided care and the rest are left there to sleep off whatever activities they had taken in throughout the night. On the weekend, the numbers swell to an estimated ten thousand people. Due to competition among drug dealers to make the most desirable product, they are lacing the drugs with insecticide that has been banned for use around humans. The drugs produce a dangerous but desirable neurological response. He also lectured about the addition of fentanyl, is it is difficult to measure it out as a cutting agent, because literally a dose that could knock an elephant down is the size of a grain of salt. It is a very minute amount, which makes it difficult to measure it out as a cutting agent, which is a major cause of overdose not only in the United States, but worldwide.

NCSBN presented their strategic plan that includes other international oversight entities; currently NCSBN permits a non-USA board or its equivalent to be an affiliate member. Several Canadian providences are affiliate members and have recently begun to require the American NCLEX for its entry into practice. There was much discussion at the general meeting as well as the president's roundtables about the proposed membership levels for each type of board member level and what right each one of those levels may exercise, whether voting on bylaws or having access to the NCLEX etc. The president's meeting included much discussion regarding the eNLC implementation, leadership opportunities for NCSBN, board and educational opportunities offered through the website.

Ms. Tyranski reminded the Board that elections for president and vice-president will be held during the June 14, 2017 meeting. She is currently serving her second term, and does not intend to seek re-election as president. She encourages all members to run for office and she committed to offering her support in transitioning the responsibility to the newly elected officers.

Over the past few months, Ms. Tyranski reported that she has been endeavoring to work with DPR and the Department of State leadership to ensure that the responsibilities of the Board vs. DPR are defined and preserved.

She was recently presented with a motion for an emergency suspension. Ms. Tyranski agreed with the motion for a temporary emergency suspension that came from the Attorney General's office. Secretary Bullock, however, did not agree. Ms. Tyranski advised the Board of Secretary Bullock's reasoning for denying the motion for an emergency temporary suspension.

Ms. Tyranski informed the Board that she has attempted to obtain clarification on is the Board's adherence to Robert's Rules of Order. It is Ms. Tyranski's understanding that under Robert's Rules of Order, that the President is a non-voting, ex-officio member of every committee that he or she appoints. However, according to the Division of Professional Regulation, as well as the Attorney General's office, the Board of Nursing does not follow Robert's Rules of Order, because it would violate the Freedom of Information Act (FOIA). It was for that reason she could not be considered ex-officio, and therefore a member of the public. During the Committee meeting, she had an urgent situation from a client and did leave mid-meeting before the executive session. At the conclusion of her report, she requested that the Board discuss how they want to address the committee process, committee structure, and how to proceed with the President attending committee meetings.

Ms. Tyranski informed the Board that she and Dr. Mack are responsible for the meeting agendas, routinely review each agenda item, and try to manage the number of hearings and items included. However, there are instances where items are still added last minute to eBoards. Ms. Tyranski informed the Board that administrative staff has been trying to bring everyone's attention to the fact that new items have been added to the agenda. She reported that she and Dr. Mack have tried to organize the pipeline of the process so that there are few Consent Agreements coming in last minute. However, sometimes it cannot be avoided. Ms. Tyranski wanted to bring to everyone's attention that the members of the administrative support team are doing the best they can to try to get as much information in as early as possible in order to allow Board members as much time as possible to fully review the information. Ms. Tyranski is continuing to work with the Attorney General's office, the administrative support team, and Dr. Mack to make the process easier for Board members.

Ms. Singh advised the Board that they are beholden to FOIA, the APA, 24 *Del. C.* § 19, not Robert's Rules of Order. She informed members that if the Board strictly complies with Robert's Rules of Order, which is not Delaware law, that the Board would be in violation of FOIA.

Additionally, it is problematic when more than one representative of the Board attends a committee meeting, as the Board runs the risk of having more than one member recused from the ultimate hearing. Ms. Singh stated that if the Board insists on having the Board president attend committee meetings, she should attend all of the committee meetings to maintain consistency. The Board discussed the purpose for the President attending committee meetings. Ms. Tyranski recommended based on Ms. Singh's logic, that the President not be responsible for chairing a committee. The Board will continue their discussion during the May 10, 2017 meeting.

Dr. Devereaux inquired about Secretary Bullock's ability to deny a motion for an emergency temporary suspension. Ms. Singh advised the Board that 24 *Del.C.* § 1923, allows for emergency temporary suspensions only if signed by the Secretary of State. Ms. Singh informed the Board that they may express their disagreement with Secretary Bullock's denial of the emergency temporary suspension.

Ms. Lane moved, seconded by Ms. Nellius, to advise Secretary Bullock that the Board disagrees with his decision in this instance Motion unanimously carried.

EXECUTIVE DIRECTOR'S REPORT

Dr. Mack informed the Board that she attended the Compact Administrator Meeting, which was held on Sunday, March 12, 2017, and attended additional meetings Monday through Wednesday. The enhanced Nurse Licensure Compact was discussed in great detail at the Midyear meeting. When the 26th State enacts legislation, that date will be the effective date of the enhance NLC. The implementation date will be six months after the effective date. As of April 2017, fifteen states that have enacted eNLC legislation.

The Board was advised that the proposed eNLC legislation have been introduced as Senate Bill 59.

NCSBN is currently working on revising the NCLEX and simulation guidelines are available on the NCSBN's website.

Dr. Mack advised the Board that she has been working on a strategy to notify nurses about the eNLC, and one of the strategies that NCSBN has recommended is the utilization of notify. This system has several benefits, such as notifying registrants when their licenses are due to expire. Ms. Darling and Ms. Lewis joined Dr. Mack and Ms. Williams in a marketing initiative at a public health conference in March. Of the 230 people who attended the conference, over 100 people began the registration process for eNotify. In January 2017, 513 Delaware licensees were registered with eNotify, and Dr. Mack has requested an update from NCSBN regarding the total number of Delaware licensees who are registered.

Dr. Mack and Dr. Castaldo attended NCSBN's APRN Roundtable. An expert presented and discussed malpractice claims, and the variety of malpractice claims submitted. After an analysis of the claims, it was reported that APRN qualifications are being scrutinized about services rendered particularly for assessment and diagnosis.

The debate between the definitions of acute care versus primary care nurse practice continues. Many professional organizations determine the competencies and measures for specialists. Dr. Mack reported that many organizations are broadening how practice is interpreted, and the requirements for maintaining certification and recertification.

The post-renewal audit for the February renewal period has been initiated. Dr. Mack reported that 1,088 RNs and 208 APRNs are scheduled for renewal in May.

ECRI, a non-profit organization, focusing on applied scientific research to improve patient care released their top ten patient safety concerns for 2016. The top ten concerns consisted of: information management in electron health records; unrecognized patient deterioration; implementation and use of clinical decision support; test result reporting and follow-up; antimicrobial stewardship; patient identification; opioid administration and monitoring in acute care; behavioral health issues in non-behavioral health settings; management of new oral anticoagulants; and inadequate organization systems or processes to improve safety and quality. The concerns seem to be themes that are evident when working with individuals who have been subjected to disciplinary action.

NEW BUSINESS BEFORE THE BOARD

Licensee Applicant Reviews

Nydesha Brown, GPN – Examination

The Board reviewed the application for Nydesha Brown, GPN. Ms. Brown graduated from Adoni Health Institute in May 2016. Her CBC shows Simple Assault in March 2009. Ms. Brown answered "yes" to

question #10. She submitted an explanation regarding her criminal history, disposition documentation, and two letters of reference for consideration. Ms. Nellius moved, seconded by Ms. Bastholm, to grant a waiver for the disqualifier to sit for the NCLEX. Motion carried with Mr. Brown opposing.
